

Caninsulin[®]

Page 1 of 4

Section 1: Identification of the Substance and Supplier

Product name	Caninsulin
Recommended use	An insulin injection for use in dogs and cats.
Company details	Intervet Limited 12 Shakespeare Ave, Upper Hutt Phone: 0800 447 838, Fax 0800 424 838 Website: www.intervet.co.nz Hours 8am – 5 pm, Mon – Fri
Emergency telephone	0800 764 766 (0800 POISON) 24 hours human health 0800 243 622 (0800 CHEMCALL) 24 hours
Date of preparation	September 2008

Section 2: Hazards Identification

Hazard classifications	This product is non-hazardous as it does not trigger any of the minimum degrees of hazard under the HSNO Act 1996.
------------------------	--

Section 3: Composition/Information on Ingredients

Chemical name	CAS number	Concentration
Highly purified porcine insulin	12584 – 58 – 6	40 I.U

Section 4: First Aid Measures

Necessary first aid measures	<p>ACCIDENTIAL SELF INJECTION: Bearing in mind that the duration of action of Caninsulin is up to 24 hours, the patient will require observation for 24 hours for signs of hypoglycaemia. Should this eventuate the administration of glucose orally or even intravenously is most advisable. Blood glucose monitoring for 48 hours is also suggested.</p> <p>SKIN CONTACT: In case of skin contact, while wearing protective gloves, carefully remove any contaminated clothing, including shoes, and wash skin thoroughly with soap and water. If irritation or symptoms occur or persist, consult a doctor. An allergic reaction is possible.</p> <p>EYE CONTACT: In case of eye contact, immediately rinse eyes thoroughly with plenty of water. If wearing contact lenses, remove only after initial rinse, and continue rinsing eyes for at least 15 minutes. If irritation occurs or persists, consult a doctor.</p> <p>INGESTION: Inactive by mouth.</p>
Required instructions	For advice contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor.
Notes for medical personnel	Treat allergic reactions by skin exposure with antihistamines.

Section 5: Fire Fighting Measures

Type of hazard	Not classified as flammable
Fire hazard properties	In fire incidents toxic fumes of nitrogen oxides, sulphur oxides, carbon monoxide may be formed.
Regulatory requirements	Not applicable
Extinguishing media and methods	Carbon dioxide (CO ₂), extinguishing powder or water spray
Hazchem code	None allocated
Recommended protective clothing	Wear self-contained breathing apparatus (SCBA) plus protective gloves.

Section 6: Accidental Release Measures

Emergency procedures	Wear chemical resistant gloves and overalls, facemask or goggles. Prevent further spillage. Adsorb spilled product and place in sealable container for disposal. Wash down affected area with water plus detergent. Absorb and collect washings and place in the same sealable container for disposal. Seek advice from the local authority regarding disposal. A
-----------------------------	---

Section 7: Handling and Storage

Precautions for safe handling	Avoid contact with skin, eyes, and mucosa. Keep containers adequately sealed during material transfer, transport, or when not in use. See Section 8 (Exposure Controls) for additional guidance.
Regulatory requirements	Not required
Handling practices	Avoid contact with skin. Keep containers adequately sealed during material transfer, transport, or when not in use.
Approved handlers	Not required.
Conditions for safe storage	See below.
Store site requirements	Store between 2 and 8 °C. Do not freeze. Keep out of reach of children. Protect from light.
Packaging	Schedule 4

Section 8: Exposure Control/Personal Protection

Workplace exposure standards	Not applicable.
Application in the workplace	Ensure adequate ventilation. Keep container sealed when not in use.
Exposure standards outside the workplace	No TEL is set for this substance at this time EEL - Not applicable.
Personal protection	Wear chemical resistant gloves, facemask or goggles.

Section 9: Physical and Chemical Properties

Appearance	White to off-white suspension with characteristic odour, settles to a white sediment
Boiling Point	Not determined
Melting/Softening point	Not applicable
Vapour Pressure	Not determined
Specific Gravity	Not available
Solubility (H ₂ O)	Insoluble suspension
Percent Volatiles	Not determined
Evaporation Rate	Not determined

Section 10: Stability and Reactivity

Stability of the substance	Stable under normal conditions.
Conditions to avoid	Avoid high temperatures, light and freezing.
Material to avoid	Avoid food products
Hazardous decomposition products	Warming the product above 30°C may initiate a degradation reaction, with the formation of penillic, penicillenic and penicolic acids. Gas slowly evolved during this reaction may result in the bottle building up an over-pressure resulting in the spraying of contents when punctured by a syringe.

Section 11: Toxicological Information

Acute effects for individual ingredients only

TEL	No TEL is set for this substance at this time.
-----	--

Chronic/long term effects for individual ingredients only

Section 12: Environmental Information

Effects for individual ingredients only.

EEL	Not applicable.
-----	-----------------

Section 13: Disposal Considerations

Disposal information	<p>Disposal Dispose of this product only by using according to the label, or at an approved landfill, or other approved facility.</p> <p>Container Disposal Bury in an approved landfill or other approved facility.</p>
Reference	Current version of NZS 8409 Management of Agrichemicals

Caninsulin[®]**Section 14: Transport Information**

Relevant information Not classified as a dangerous good for transport.

Section 15: Regulatory Information

Regulatory status ACVM registration number: A07401.
For conditions of registration see www.nzfsa.govt.nz/acvm

Approval not required under the HSNO Act 1996.

Prescription Animal Remedy (**P.A.R**) Class I
For use only under the authority or prescription of a veterinarian.
